

## Quick Cut Saw – Ideal for High-Purity Applications! (Size Range 3/4" to 4" Tube)

**Swivel Electrical Cord Connection!  
(rotates around as you cut tubing)**

Our "Quick Cut Saw" is designed for fabrication facilities and for projects that require beveling or squaring for pre-prep welding of pipes and tubes. Designed to perform true and burr free cuts with our special vice design that creates a self-centering hold for the finest cuts. Ideal for high-purity applications!

### **New Features:**

- Will cut tubing from .75" to 4.5"
- Square cut to .005"
- Steady rest for accurate cutting
- Enclosed gear box
- Simple to adjust sizes and depth
- Performs bevels and squaring
- Can also cut plastic, aluminum and a variety of other alloys
- Electric motor: variable speed control 110v or 220v
- Will cut piping from .5" to 4"
- Speed Control Motor
- Swivel Cord Connector
- Safety Guard over Saw Blade
- Lock Down Plate
- Ideal for high-purity applications
